

Royal Free Symposium on Thermal Imaging in Medicine and Biology

Monday 13th October 2025

Hosted at the Royal Free Hospital, London, UK

Aim of the day:

To present and discuss advances in thermal imaging in medicine and biology.

Topics include (but are not limited to):

- Clinical and research applications of thermography.
- Software development.
- Infrared hardware.
- Quality assurance and standards.
- Experience of service delivery.

Attendance is free of charge and is kindly supported by the **European Association of Thermology**.

Short abstracts (100 words) should be submitted by **15th August 2025** to rf-tr.microvascular@nhs.net

Registration for the symposium closes on **19th September 2025**. Please register your attendance at:
